
AGREEMENT FOR THE "GUARDIANS OF HEROES" PROGRAM

Introduction:

The Home of Heroes (HoH) in Siem Reap, Cambodia is a first-of-its-kind retirement facility for the working demining dogs who have dedicated their lives to clearing the lands of Cambodia and the world from the deadly remnants of human wars and conflicts. Founded in 2018 by Yulia Khouri, the HoH Center provides a beautiful and dignified retirement home for these heroic canines.

Prior to the establishment of HoH, many of these hardworking demining dogs faced an uncertain future after retirement, often ending up euthanized or in unmonitored adoptions where they did not receive proper care and support. Recognizing their immense sacrifice and service, Yulia Khouri created the HoH Center as a safe haven to honor these magnificent dogs.

The center currently serves as a home to over 50 retired demining dogs, providing them with the best care and medical attention from the onsite Animal Mama Veterinary Hospitals. To further enhance their quality of life in retirement, Yulia has also established the "Guardians of Heroes" program. This highly selective foster program allows exceptional, carefully selected and vetted families and individuals to become permanent guardians to the hero dogs, offering them a life of love, care and spoiling in their golden years.

Qualifications to become a "Guardian of Heroes":

The qualifications to become a "Guardian of Heroes" include:

1. Being loyal to the dog's care
2. Having the time and willingness to spend time with the dog for walks, exercise and play
3. Being able to bring the dog to Animal Mama for monthly check-ups and yearly full health examinations
4. Covering all monthly, quarterly and annual preventative care costs. All veterinary care, aside from the costs of preventative care and food, is covered by Animal Mama.
5. Adhering to the strict care protocol of prevention and nutrition established by the Home of Heroes and Animal Mama
6. Being willing to participate in media releases about the Home of Heroes and Guardians of Heroes program
7. Being able to afford the food suggested by Animal Mama
8. Using Animal Mama Veterinary Hospitals solely as the veterinary provider for their hero dog

Necessary Commitments:

The foster care agreement also assumes that in case of a change in life circumstances that prevents the family from continuing to look after the dog, the dog must be returned to the Home of Heroes. It is strictly forbidden to transfer the dogs to any other individual without the expressed permission of the Home of Heroes management.

By signing this agreement, the Guardian of Heroes agrees to uphold all the qualifications and commitments outlined above to provide the best possible care and support for the hero dog entrusted to them.

Name of a Hero Dog: _____
